

4.20.11

WED.
MONDAY
- 1 -

- LIGHTING -

- Pay attention to shadows on face!
- Use foam core white to bounce
black to soften
- Be aware of colors around subject,
will bounce colored light.
- The bigger the light source/the softer
smaller will be flat, use a difuser
- Best flash - one that pivots
with slave mode
 - Pocketwizad - radio controlled slave
sits on top of hot shoe
 - TTL = through the lens
 - E-TTL = camera controls the flash
