Photo 2019

Pass Arouns / Info

The Repo Show - March 4-26 @ Arts Guild of Sonoma
An Aperture Monograph - Diane Arbus
Animated Gift -> function in photoshop

Homework

- Midterm meeting next week (notes on portfolio topics)
- photo projects (listed on week 9) due for midterms
- Week 9 evaluation form
- 5-10 of own pictures for critiques (portfolio subjects)
(By 3/29/11)

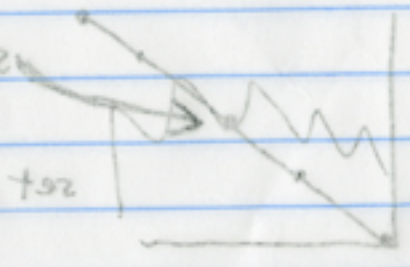

Motion

- things coming toward you are easy to freeze
- try panning vs not panning - blur background & subject
- look at focus modes because the moving sub makes it hard to focus (meter -> center of spot, focus -> center, spot)

* look for lenses with a low aperture (1.25)
